www.jeppe.design

Hi!

I am a swedish **interaction designer** with focus on **front-end development**, **rapid prototyping** and **user-centric design**.

I am trained to conduct user testing, research, interviews and create user flows, charts and concept illustrations. I'm currently studying interaction design at Malmö University. I've also taken classes in project management and interview technique at Lund University.

Thank you for reading my CV and hope to speak to you soon!

CURRENT PROJECTS

Q - by ioio
Project Manager / Head Developer

A new digital queue system is developed for the schools workshop area. SPA running on students browser and displayed on large screens in the rooms. Mobile first with Bootstrap and jQuery. Firebase integration with database and account handling/security.

Skills developed:

- Html5	- Css3	- JavaScript
- jQuery	- Bootstrap	- Firebase
- Knockout.js	- Project Management	- Database Handling

https://github.com/mah-ioio/q

Jeppe.design
Designer/Developer

Personal portfolio site where I show my work and can write blog-posts. Built from scratch with Jekyll. Live on jeppe.design but also a work in constant progress.

Skills developed:

- Html	- Css	- Jekyll
- Sass	- JavaScript	- Web Fonts

https://github.com/monodrom/monodrom.github.io

SKILLS

Design

- Conceptualizing	- Wireframes	- Presentation
- Interview Technique	- Usability Analysis	- User Research
- Concept Illustration	- 3D modeling	- Focus Group Leading
- Design Critique	- Mockups	

Development

- Project Management	- Scrum	- UML diagrams
- Flow Charts	- Documentation	

TECHNICAL SKILLS

Front-End Development

- HTML5	- CSS3	- JavaScript
- jQuery	- Bootstrap	- Knockout
- Jekyll	- Wordpress	- Sass
- Gulp	- JSON	- XML

Other Programming Languages

- Java	intermediate application and Android development
- C#	basic scripting for Unity
- Python	simple scripting
- Arduino	physical prototype development with Arduino hardware
- Processing	lightweight and rapid application prototyping

Programs/Tools

- Photoshop	- Illustrator	- InDesign
- Git	- Sublime Text	- Atom
- Eclipse	- Android Studio	- Visual Studio
- Excel	- Keynote	- Axure
- StarUML 2	- IBM Bluemix	- Microsoft Azure
- Firebase	- Terminal (Bash)	

Operating Systems

- OS X	- Windows XP, 7, 8, 10	- Raspbian
- Android 4.4 and up	- iOS
